

Dear Parents,

Your child will participate in an exciting event on Wednesday, September 28!

Our school has partnered with the Clinton County Workforce Collaborative and Junior Achievement to present a **Career Exploration Fair** at Laurel Oaks Career Campus, located at 300 Oak Drive, Wilmington. Additionally, from 3:00pm to 6:00pm, the event will transition to an event designed for adults looking for a career or a career change.

During your child's visit, they will have the opportunity to learn about a wide array of jobs. Professionals from over 35 local organizations will share information, materials, and demonstrations. Prior to their visit, students will be prepared at school with a curriculum designed specifically for this event. Please encourage your child by having conversations with them about their interests, what questions they may come prepared with, and how they can best present themselves to the organizations on hand.

In addition to the resources presented at school and at the event, Junior Achievement is providing a free resource focusing on how students can begin planning their own business, career, money management, networking, and much more. This resource can be accessed at school or at home and can be accessed by clicking this link... <https://connect.ja.org>

Parents, if you have a personal interest in learning more about our outstanding, partnering organizations on hand this day, or simply want to see some of what your child learned, we invite you to take a shared interest in this event by joining us in the afternoon, from 3:00pm until 6:00pm. This portion of the event is open to the public. Feel free to share this with others who might be looking for new career information or a career change.

Below is a listing of the organizations currently committed to our event.
